

# WEBINAR

## Vapor Phase Soldering

THERMAL SYSTEMS

October 30, 2025 at 9.00 a.m. and 4.00 p.m.

Do you process large and heavy boards for which condensation soldering is out of the question? Or do you want a system that you can reliably carry out vacuum processes with at any time? Then choose a **Condenso series system** that can be customised to your manufacturing environment!

The Condenso series system versions can be integrated into a wide range of manufacturing environments. Whether it's a batch operation, inline connection or continuous soldering, Rehm offers the highest degree of process reliability for all areas.

October 30, 2025 at 9:00 a.m. CET (for Asia, Europe, ROW)  
October 30, 2025 at 4:00 p.m. CET (for Americas, Europe)

Registration:  
[i.zielke@rehm-group.com](mailto:i.zielke@rehm-group.com)

Duration of the webinar: 60 min

The webinar is free of charge.

### Main topics of the webinar

- Vapor phase vs. Convection
- Why Vapor phase?
- Where are the Applications?
- Rehm vapor phase technology
- Advantages in working with Rehm products
- From batch to max. output. Always the right solution.

*Subject to substantive adjustments*
